

Index of Research Articles by Titles

Volume 20

- Bombs Away: Visual thinking and students' engagement in design studios contexts Vol 20.1
Dr Marianella Chamorro-Koc, Queensland University of Technology, Australia
Mr Andrew Scott, Queensland University of Technology, Australia
Dr Gretchen Coombs, Queensland University of Technology, Australia
- Complexity in Design-Driven Innovation: A case study of knowledge transfer flow in subsea seismic sensor technology and design education Vol 20.1
Nenad Pavel, Oslo and Akershus University College of Applied Sciences
Arild Berg, Oslo and Akershus University College of Applied Sciences
- Crafting Maths: Exploring Mathematics Learning through Crafts Vol 20.2
Sirpa Kokko, University of Helsinki, Finland
Lasse Eronen, University of Eastern Finland, Finland
Kari Sormunen, University of Eastern Finland, Finland
- Designerly Ways to Theoretical Insight: Visualisation as a means to explore, discuss and understand design theory Vol 20.1
Anne Louise Bang, Design School Kolding, Denmark
Silje Alberthe Kamille Friis, Teko Design & Business, VIA University College, Herning, Denmark
Anne Katrine Gøtzsche Gelting, KEA: Copenhagen School of Design and Technology, Denmark
- End-piece Vol 20.3
Prof Richard Kimbell and Kay Stables, Goldsmiths, University of London
- Framing Behaviours in Novice Interaction Designers Vol 20.1
Nicole Lotz, The Open University, UK
Helen Sharp, The Open University, UK
Mark Woodroffe, The Open University, UK
Richard Blyth, The Open University, UK
Dino Rajah, Botho University, Botswana
Turugare Ranganai, Botho University, Botswana
- Gender Differences in Technology Vol 20.3
Illuminated Through Test Performance (outcome) Data and 'Real-time', 'On-task' (process) Data
Prof Richard Kimbell, Goldsmiths, University of London
- Learning from Students: Reflections from personal magazines in basic design course Vol 20.1
Koray Gelmez, Istanbul Technical University, Turkey
Humanur Bagli, Istanbul Technical University, Turkey
- Phenomenology for Introductory Architectural Analysis Courses: The pentagon methodological approach Vol 20.2
Fátima Pombo, Guest Professor, Department of Architecture, University of Leuven, Belgium
Wouter Bervoets, Postdoctoral researcher, Department of Architecture, University of Leuven, Belgium
Henk De Smet, Professor, Department of Architecture, University of Leuven, Belgium
- Practicing Design Judgement through Intention-Focused Course Curricula Vol 20.1
Ylva Fernaeus, Royal Institute of Technology, KTH, Stockholm, Sweden
Anders Lundström, Royal Institute of Technology, KTH, Stockholm, Sweden

Volume 20

- Researching Design Learning: Research methodology
Prof Richard Kimbell and Kay Stables, Goldsmiths, University of London Vol 20.3
- Researching performance based assessment: authenticity in assessment activities and processes to support the development of learner capabilities
Kay Stables, Goldsmiths, University of London Vol 20.3
- Tasks in Technology: An analysis of their purposes and effects
Prof Richard Kimbell, Goldsmiths, University of London Vol 20.3
- Technical Objects Between Categorisation and Learning:
An exploratory case study in French middle school
Impedovo, M.A; Andreucci, C.; Delserieys-Pedregosa A.; Coiffard, C.; Ginestié, J. Aix-Marseille Université, France Vol 20.2
- The National and the Local: Conflicting requirements in the assessment of learners' performance
Prof Richard Kimbell, Goldsmiths, University of London Vol 20.3
- The Threshold of Uncertainty in Teaching Design
Jane Osmond and Michael Tovey, Coventry University Vol 20.2
- What's D&T For? Gathering and Comparing the Values of
Design and Technology Academics and Trainee Teachers
Alison Hardy, Nottingham Trent University Vol 20.2
